ROASTER. *The Grill Specialists*

Choose your Roaster and enjoy the unique experience of cooking on charcoal grills!

Choose your Roaster and boast your inspiration and creativity!

One of the world's oldest grilling traditions is the Greek. In Greece, they say you can learn to cook but you are born to grill. Grilling has a special, almost primordial, place in Greek food lore, from mythic and ancient pagan celebrations to the present national and religious ones.

Grilling is arguably the oldest culinary art form in Greece.

This tradition combined with the know-how and the modern machinery have led to the production of the Roaster equipment.

Inspired from the Greek tradition we manufacture high quality products, modernly designed and functional which meet the needs of the very demanding sector of Horeca.

We believe in continuous improvement. Our engineers are constantly developing and redesigning products so that they can respond to our customers' needs.

We strive to construct products that are efficient, easier to install and maintain, and products that meet the highest standards.

Roaster . . . Fires your grilling passion !

Born to Grill !

BIOKAN

ROASTER

The Grill Specialists

SIGNATURE BY BIOKAN Inc.

BIOKAN Inc. was founded in 1988 and, since then, has been manufacturing stainless steel constructions for restaurants and other food service establishments. BIOKAN Inc. strives to construct products that are more efficient, easier to install and maintain, and products that meet the highest standards.

The know-how and the experienced staff as well as the avant-garde machinery has led to the construction of high-quality products, which combine modern design with functionality, to the most competitive prices.

BIOKAN Inc. boasts one of the most technologically advanced production lines of stainless-steel constructions in Greece and believes in continuous improvement. It is developing and redesigning products so that they can respond to its customers' demanding needs.

WHEN TRADITION MEETS INNOVATION

Roaster Charcoal Oven is the result of the long-term experience of BIOKAN Inc. in manufacturing open grills in combination with the Greek tradition of cooking in wood ovens and on charcoal grills.

Roaster Oven is a product made to meet the needs of the very demanding sector of Horeca. It is an appliance that every kind of Restaurant, Steak House, Brasserie and Bistro must have.

ROASTER

MAKES THE DIFFERENCE IN A COMMERCIAL KITCHEN

SPEED

It is faster than an open grill.

QUALITY

Unique flavor, texture, and juiciness to all kinds of food. Perfectly roasted and grilled food.

ECONOMY

It is a combination of an open grill and a closed oven. The integrated vent system for the air flow regulation leads to a lower charcoal consumption.

CONVENIENCE

Designed to be functional; the multi-level and easily removable grill racks as well as the ash collector drawer and the grease collector pan are only some of the characteristics that make it easy to use and clean.

SAFETY

It prevents the exposure of the chef to constant heat. The especially designed fire braker hat reduces the risk of fire.

Roaster Charcoal Oven

- Works exclusively with charcoal
- Has various levels of grilling
- Boasts a modern closed barbeque design

- Includes a vent system for temperature control
- Assures perfect texture and flavor for all kinds of food (meat, fish, vegetables etc.)

CHARCOAL/WOOD - FIRED CHICKEN ROTISSERIE

Roaster presents the new Charcoal/Wood – fired Chicken Rotisserie.

It is a closed type of rotisserie that guarantees the perfect roasting result of chickens and all kinds of meat and fish. Inspired by the traditional Greek culinary techniques, it has been designed and created in accordance with the modern kitchen requirements.

The sophisticated planetary spinning system contributes both to the uniform and fast roasting.

This robust machine, made with high quality stainless steel, works both with wood and charcoal which can be easily loaded at a back cabin through a lateral door.

The firebrick coating of the cabin and the refractory glass door for continuous inspection of the roasting process assure the heat containment and efficiency.

The ash collector drawer in the back cabin and the grease collector tray with the evacuation tap facilitate the cleaning of the rotisserie.

Choose between the small or the big model and get ready to live the absolute roasting experience. Choose your Roaster...

CHARCOAL PARRILLA GRILL

Roaster presents the latest release, the new Roaster Parrilla.

It is an open grill made from stainless steel available in two versions, counter top and with cabinet.

Roaster Parrilla boasts an ergonomic design which has been thought and built to offer practicalities that cannot be ignored.

The integrated elevating system enables the chef to easily adjust the height of the grill racks and obtain the desirable temperature through the various grilling levels and the ash collector drawer facilitates the cleaning after every use.

Roaster Parrilla is the equipage every professional kitchen should possess.

CHARCOAL ROBATA GRILL

Roaster presents the new Roaster Robata grill.

"Fireside-cooking" is the meaning of robatayaki often shortened to robata in Japanese cuisine and it refers to a method of cooking, similar to barbecue in which items of food are cooked at varying speeds over hot charcoal.

The Roaster Robata is designed to offer various levels of grilling combining the Greek and Japanese tradition as the food offered consists of a combination of morsels of seafood and vegetables, but other kinds of food are also suitable for grilling on the Robata.

While the setup varies, a common arrangement has the grill in a central position around which the customers are seated.

CHARCOAL CHURRASCO GRILL

Roaster is proud to present the Churrasco Grill.

Inspired from the Greek "souvlaki" on charcoal grills and the Hispanic "churrasco", Roaster has created a modern appliance which combines both traditions.

Roaster churrasco grill boasts a skewer rotating system over the embers which assures the perfect roast.

The skewers can be combined or replaced with grill grates according to the kind of food you choose to cook.

Choose between the counter top and the cabinet model.

Choose your Roaster and fire your cooking passion....

CHARCOAL SPIT ROTISSERIES

Spit-roasting was a custom in festivities in Ancient Greece.

The ancient Greeks used to cook whole lambs and goats on spits but also individual pieces of meat. The spits were either made of wood or metal.

This custom of the ancient Greeks has been extended over time up to the modern spit rotisseries. Spits in the past were turned manually are now driven by electrical motors.

Roaster charcoal spit rotisseries have an individual motor for each axis and the design can include up to three axes where one, two or three spits can be mounted over an open or a closed grill.
